2026 Florida General Election information

Safest ways to vote: Vote early in person or drop mail ballot to an official drop box

Vote early in person: Oct 19 - Nov 1 at any of Leon County's 10 Early Voting locations, or

Hand deliver your completed mail ballot to a secure ballot intake station (drop box) at any Early Voting location or to the Leon County Supervisor of Elections office during voting hours. See times on this guide.

Using a mail ballot?

You are required to request a mail ballot in every election cycle in order to receive one.

Review your voter registration & request mail ballots on the Leon County Supervisor of Elections website: www.leonvotes.gov

A mail ballot is a voter 'insurance policy' assuring your vote ahead of Election Day. A safe, guaranteed voting method, each mail ballot is received and counted on the night of the day it is submitted. If mailed, please do so as soon as it's received. Regardless of how you submit your ballot, you can check your vote.

Vote-by-mail ballots are not allowed in voting booths, but you may take a sample ballot (marked or unmarked), a photograph of your completed mail ballot on your phone, and other notes and information with you.

Deadline to request to be mailed a ballot:
October 22
